

Lasting Appeal

KITCHEN DESIGNER **GEOFFREY MCCLELAND** OF **DESIGNERS CHOICE** IN HASSOCKS, EXPLAINS HOW HE CREATED THE PERFECT LIVING SPACE FOR A VERY HAPPY CLIENT

THE BRIEF

For this kitchen design the client wanted a modern kitchen that made an immediate impact as soon as you opened the door of the room. Our aim was to create a real 'wow' factor but with lasting appeal.

We met that brief firstly by looking at the space available as a whole, we removed structural obstructions and we created interest by curving a wall and adding a complimentary peninsular and glass breakfast bar.

THE DESIGN & BUILD

Using our state-of-the-art computerised design techniques and of course our own imagination, we were able to start the creative process.

The choice of materials was critical and we used Corian for the main work surfaces, granite with an antico finish on the hob surface and glass on the walls and windowsill.

Finally, we used our German made high-gloss kitchen system and our team of craftsmen ensured the beautiful kitchen was built without fuss. These ingredients mixed with our design flair and skills as a kitchen specialist made the perfect recipe for this kitchen development.

THE FINALE

The last and most important element was our clients who after initial consultation gave us a free hand to create this kitchen for them. And we did it all within budget.

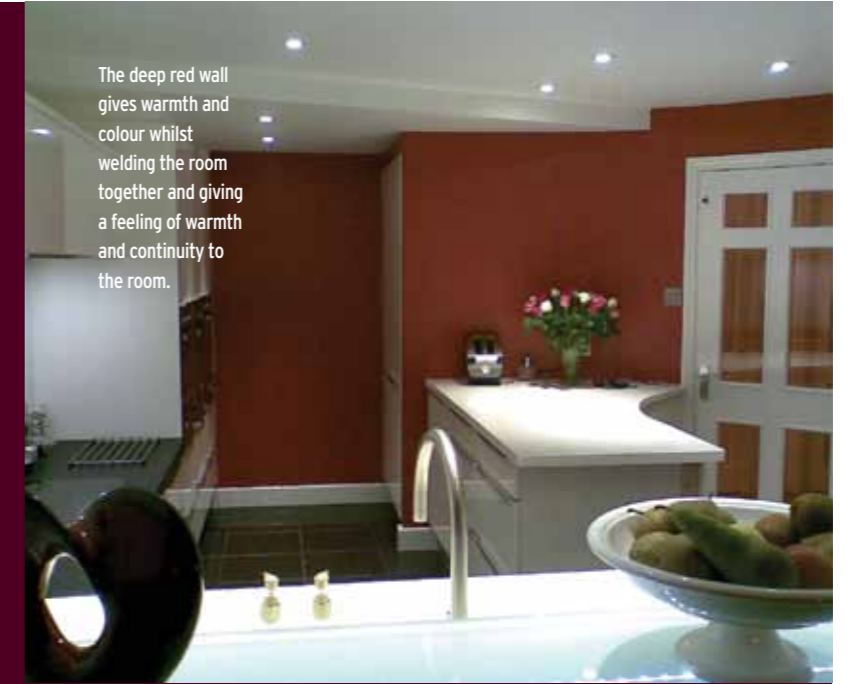

This stunning contemporary kitchen with flowing lines, sweeping curves, gleaming granite and glass is now the perfect living space.

THE BRANDS BEHIND THE BUSINESS

We have an excellent product portfolio offering some of the most iconic brands in Europe and these include: ProNorm, Stoneham and our own 'Designers Choice' own brand of kitchens. Our business is a main retailer for many well known brands of appliances including Neff, Siemens, ATAG and we are fortunate to be the appointed distributors in Sussex for Gaggenau, one of Europe's foremost manufactures of luxury built-in appliances.

The deep red wall gives warmth and colour whilst welding the room together and giving a feeling of warmth and continuity to the room.

This shows the curved Corian surfaces and the antico granite to their best advantage. Note how the glass on the walls compliments the high-gloss lacquer of the cabinets.

The Corian fully integrated sinks sit seamlessly in the work surfaces, white on white in perfect harmony.
